550 S. Winchester BLVD, Suite 510
San Jose, CA 95128, U.S.A

July 7th, 2010

Dear Customer,

SANYO HIT Power A series panels are equipped with Multi-Contact® Type IV Connectors (PV-KST4, PV-KBT4) also known as MC4 PV Connectors. In order to comply with NEC 2008, a safety locking clip may be needed with connections in accessible arrays.

The safety locking clip (PV-SSH4) is made by Multi-Contact® and can only be released with a special tool (PV-MS). Locking clips are not supplied with modules and must be purchased separately.

For further assistance please contact:

Pedro Yribarren

Phone: (408) 557-4096

Email: pyribarren@sec.sanyo.com

Sincerely,

A handwritten signature in black ink, appearing to read 'Pedro Yribarren', is written over a horizontal line. The signature is fluid and cursive, with a large loop at the end.

Pedro Yribarren
